

Hosanna (God Who Saves)

You walked a lonely road
Betrayed by friend and foe
Rejected and despised you lived to die
And died so they could live

They sang "Hosanna, Hosanna, God who saves"
Lifting their voices and hands in praise
Hands that would later deliver you to the grave
Hosanna, the God who saves

You prayed alone that night
To shed salvation's light
You freely offer all redemption's call
And call us your delight

We sing "Hosanna, Hosanna, God who saves"
Lifting our voices and hands to praise
Love so amazing it's raising us from the grave
Hosanna, the God who saves

It is finished, it is done
The veil has been opened the victory won
With your grave stone rolled away
All may walk into eternity's day

We sing "Hosanna, Hosanna, God who saves"
Lifting our voices and hands to praise
Love so amazing it's raising us from the grave
Hosanna, Hosanna, God who saves
Lifting our voices and hands to praise
Love so amazing it's raising us from the grave
Hosanna, the God who saves
